PROFESSIONAL SUMMARY

Senior Android Developer with 5+ years of experience specializing in high-performance SDK development, Biometrics, and **Kotlin Multiplatform (KMP)**. Expert in architecting omnichannel solutions scaled across 10M+ users and diverse hardware ecosystems, including **Mobile (iOS/Android), ATMs, POS terminals, and Access Control Systems (ACS/СКУД)**. Proven track record of reducing crash rates by 80%, improving performance by 50%, and driving \$2M+ in additional revenue through technical innovation. Strong advocate for Engineering Excellence and mentorship.

TECHNICAL SKILLS

Core & Architecture: Kotlin (Expert), Java, **Kotlin Multiplatform (KMP)**, Jetpack Compose, Clean Architecture, MVI/MVVM, Hilt/Dagger 2, Coroutines & Flow.

Biometrics & Security: **Face Detection & Recognition (ML Kit, TFLite, ONNX), CryptoPro FSB-compliant integration**, AES-256 Encryption, Digital Signatures

Hardware & IoT Integration: **ATM & POS Terminal Integration, Access Control Systems (ACS)**, WebSocket-based Hardware Communication, CameraX, USB/Serial peripheral communication

Performance & Low-level: **C++ (JNI)**, Memory Management, App Startup Optimization, SDK Size Optimization (dynamic model updates), ProGuard/R8

Engineering Excellence: CI/CD (Jenkins, Docker), Gradle Kotlin DSL, Version Catalog, Unit/UI Testing (JUnit 5, Espresso, Mockito), Test Coverage 85%+.

PROFESSIONAL EXPERIENCE

Senior Android Developer | T-Bank (Tinkoff) | Moscow, Russia (Remote)

May 2024 – Present

- **Architected and Scaled FaceShot SDK:** Led the development of a biometric verification system successfully deployed across the bank's ecosystem, including mobile apps, **ATMs, POS terminals, and Access Control Systems (ACS)**, reaching 10M+ users with 99.9% uptime.
- **Omnichannel KMP Strategy:** Spearheaded the migration to **Kotlin Multiplatform (KMP)** to unify business logic across Android, iOS, and **C++ banking kiosks**, reducing cross-platform development time by 45%
- **ML Optimization:** Benchmarked MLKit vs TFLite vs ONNX engines, achieving 40% faster face detection while reducing SDK size by 25% via dynamic model updates.
- **Secure Infrastructure:** Integrated CryptoPro for FSB-compliant biometric authentication with AES-256 encryption, meeting strict government security standards.
- **Leadership:** Mentored 20 junior developers, improving team code quality metrics by 30% through structured code reviews and architecture workshops.

Android Developer | Kufar (Adevinta) | Minsk, Belarus

March 2022 – May 2024

- **Business Impact:** Developed paid promotion services that generated **\$2M+ in additional revenue** in the first year and increased user engagement by 40%
- **Payment System Overhaul:** Migrated payment flows from WebView to a native implementation (Coroutines/Retrofit), reducing transaction failures by 60% and improving conversion by 35%
- **Quality Engineering:** Improved Play Store rating from 3.8 to 4.5 by reducing crash rates from 5% to 2% (98% crash-free sessions).

- **Developer Experience:** Accelerated build times by 30% through Gradle optimization and migration to Kotlin DSL, saving the team 2+ hours daily.

Android Developer | VironIT | Minsk, Belarus

September 2019 – March 2022

- **High-Load Messaging:** Developed features for "BIP" messenger (10M+ downloads), supporting 50K concurrent users via optimized WebSocket implementation
- **Legacy Modernization:** Migrated 60K+ lines of Java code to Kotlin, reducing codebase size by 30% and significantly improving maintainability
- Implemented YouTube video Picture-in-Picture mode, increasing user session duration by 35% and improving user retention
- **Mentorship:** Led the company's internship program, mentoring **50+ interns**, with a 20% conversion rate to full-time engineering roles

KEY PROJECTS & ACHIEVEMENTS

- **FaceShot SDK:** Omnichannel biometric engine processing 500K+ daily verifications across mobile and hardware (ATMs/Doors)
- **Open Source Contributions:** Active [StackOverflow](#) contributor with 10,000+ people helped, top 10% overall contributor
- **Technical Writing:** Published articles on [Medium](#) and [Habr](#) sharing Android development best practices with the community

EDUCATION & CERTIFICATIONS

Bachelor of Engineering | Belarusian State University of Informatics and Radioelectronics

2015 – 2019

Certifications:

- Google Associate Android Developer (In Progress)
- Kotlin for Android Development - JetBrains
- Android Architecture Components - Google

LANGUAGES

- English (Upper-Intermediate/B2)
- Russian (Native)
- Chinese (Intermediate/HSK 3)
